## Glass Eye May Save Man From Jail Sentence

Los Angeles, March 29.—(AP)—If a jury acquits William James McKlosky of a drunk driving charge, he may feel that his glass eye probably saved him.

Dr. H. J. Weeden, prosecution witness, testified he examined McKlosky after the latter's arrest and found the pupils of both eyes dilated, indicating Dr. Weeden said, the subject was under influence of liquor.

"I guess I must have been mistaken," said the physician when his attention was called to the fact that McKlosky had one glass eye.

## HOUSE ADOPTS ROOSEVELT'S TARIFF BILL

### Democrat Forces Rally To Support Of Administration

Washington, March 29.—(AP)—Rallying to the presidential standard, the democrats today voted to override the veto of the house of representatives on the tariff bill.

The measure was passed by a vote of 273 to 111. The vote was along party lines. Only two Republicans, Peter of Wisconsin and Welch of California, voted with the democrats.

House action came after six days of debate and the defeat of about forty amendments proposing to limit the authority for the president to lower or raise import duties on agricultural products.

The measure would prevent the president to negotiate trade agreements with foreign nations for the export of American surplus.

After passage, demagogues amendments designed to curtail the board discretionary authority granted to the president to prevent reduction in duties on sugar, lumber and other products.

The first limit to three years the authority for negotiating trade agreements.

Another provided that "nothing in this act shall be construed to give any authority to cancel or reduce in any manner any of the indebtedness of any foreign country to the United States."

The closest test came on an amendment to prevent the lowering of the sugar tariff, but the proposal was defeated 121 to a fewer vote.

Amendments by Representative T. W. Higginson of Massachusetts, leader of the Republican opposition, were bowled over rapidly.

## UNEARTH RICH RELICS, CLAIM

Algeria, Algeria, March 29.—(AP)—Evidence of a rich life in the middle of the Sahara during prehistoric times were reported unearthed today by two French explorers.

The district of their explorations is in the neighborhood of the Asjer plateau, about 800 miles south of Algiers—an area of sand, dunes, sparse vegetation, heat.

Once, however, it had lush verdure and prospered, the professors believe, because they found many animal pictures, elephants, giraffes, ostriches, and other creatures.

AMENDMENT ADDED  
Washington, March 29.—(AP)—The senate banking committee in its first action on the Fletcher-Rayburn stock market control bill, today added an amendment to exempt state and municipal bonds from its provisions.

## DR. WYNEKOOP CONFINED IN PRISON CELL

Dwight Reformatory For Women

Dwight, Ill., March 29.—(AP)—A dramatic apparition, the long missing Earle Wynkoop, reached the door of the Illinois Women's Reformatory this afternoon just in time to bid an affectionate greeting and farewell to his mother, Dr. Alice Wynkoop, as she entered upon a 25 year prison term in the twilight of life.

It was a startling episode of the tragedy—the murder of Earle's wife, Rheta, in his mother's Chicago apartment office last fall, and the sensational-packed trial of the mother while her son remained hidden.

Shabbily dressed, his hair disheveled and untrimmed, the son for whose love Dr. Wynkoop was said to have loved the life of her daughter-in-law Rheta, appeared in the crowd at the prison entrance about three minutes before his mother's arrival.

The limbs of the 63-year-old prisoner, who was being helped into the prison ante-room, failed her completely at the sight of her son. She fell into his embrace and for a few moments mother and son clung to each other in silence.

Whispers to Mother.  
Earle helped his mother into a chair, and bending low he whispered rapidly several minutes. He appeared to be trying to win her assent to something, but the mother shook her head vehemently. Unhappily, she was then led to her cell.

Her mother, however, and his hands, she had not saved the time of her last journey to the reformatory. She had been driven from the county jail to the reformatory behind the sedan carrying her mother. The three returned together to Chicago.

It was the first time Earle and his mother had met since the time of their last journey to the reformatory. She had been driven from the county jail to the reformatory behind the sedan carrying her mother. The three returned together to Chicago.

Earle refused to tell questions of his whereabouts during the two trials of his mother or of his recent escape.

"I just dropped out of the sky," he said. "I'm not going to stay in Chicago. I have a job on the outside and I am going back to it. I tell you where it is it will endanger my career."

There was a brief conference between Earle and his mother. They were told that all clothes and other needs would be furnished the prisoner, and two boxes that Dr. Catherine had brought down with her went back to Chicago.

Prison attendants explained that for two weeks, Wynkoop will go through the customary quarantine routine. She will be examined physically, mentally and vocationally. Light work, such as sewing, may be found for her, they said. Simple house frills, for dress wear and kitchen necessities for utility will be provided.

Visiting rules were discussed, and it was disclosed that Dr. Wynkoop has requested that her three grandchildren, the children of Walker, never be brought to visit her in her prison surroundings.

## AUTO SALESMAN KILLS WAITRESS THEN SUICIDES

Writes Note to His Wife And Children Asking Them For Forgiveness

Danville, Ill., March 27.—(AP)—William Reed, middle-aged auto salesman of Danville, Ill., and Letha Layton, 38, a waitress, were found shot to death in Mrs. Layton's apartment here today by her parents.

A note found in the handwriting of Reed and directed to his wife and children told that he was "planning an awful thing," asked forgiveness and discussed business matters with them. Police believed he killed the woman and then himself.

Mrs. Layton's parents came today from Wallace, Ind., to visit her and went to her apartment. Unable to arouse anyone they forced their way in a rear door and discovered the bodies.

Coroner Harry George found the note, written in pencil on a rule sheet of paper at the top of which were pasted two lengthy Bible quotations cut from a Bible.

The note then proceeded: "Dear wife, and children Edna, Mildred and Ralph: "I am preparing to do an awful deed which I have been fighting down for sometime hoping things would be brighter and the clutch that one holds on to life would be looser. But it is getting worse and due to financial conditions, all combined is more than I can overcome. She will not break up any more happy homes, like that we once had, x x x"

After discussing business affairs, including the collection of a note and the location of his money, he signed it "Goodbye, Daddy."

Coroner George said the couple apparently had been dead since early Wednesday morning when Miss Mary Strawser, who lived next door, heard two shots. Each was killed with one shot, and the body of the woman was on the bed.

## Greek Freighter Maiotis is Stalemated in Effort to Take Samuel Insull to New Refuge

Banker Dies

By Priscilla Ring  
Associated Press Foreign Staff  
Istanbul, Turkey, March 29.—(AP)—While the Greek freighter Maiotis rode impatiently at anchor in Istanbul harbor tonight, apparently stalemated in an effort to take Samuel Insull to a new refuge, the Turkish cabinet conducted an extraordinary meeting at Ankara, the capital.

Although no inkling was given as to the object of the special cabinet session, it was considered specially significant since it was called on the last day of a national holiday.

Insull, fleeing to the very door of Asia in his desperate efforts to escape American extradition demands, appeared to have found the modern portals of the mysterious east not so softly yielding as the old Oriental romances pictured them.

No Explanation  
Officially there was no explanation of the Maiotis' prolonged stay here, but statements of the ship's officers that she would leave for Rumania at 2 P. M. today, contrasted sharply with the fact that the ship remained tied to her post shortly before midnight.

The possibility that Insull might abandon his search for a Black Sea haven and return to his wanderings in the Mediterranean developed when the craft was apparently denied permission to proceed northward.

A Reuters news agency dispatch to London said it was understood that American authorities asked Turkey to arrest Insull and that this request was counted for the Maiotis' delay.

The freighter, on which the 74-year-old fugitive fled from Greece March 18, remained outside the Bosphorus, the gateway to the Black Sea—all day under a heavy police guard.

She kept her steam up during the evening, but made no move to cast off from the buoy near the Maiden's tower where she was tied up.

Reports were circulated that Insull was really bound for Persia in the hope he could reach that country overland from a Russian port.

If the Bosphorus is closed to him, as it is by the Greek Canal, as it is by the Turkish Canal, the only way he could reach Persia would be by the Black Sea.

At 1:45 p. m. the banker-patron of art and music, dumped in his chair, fell to the floor of his private office in the firm of Kahn, Loeb & Company, of which he had been a dominant partner since leaving his native Germany for the United States years ago.

Word that Kahn had died spread over Manhattan rapidly. But the banking firm made no statement of it until the stock market closed at 2 p. m. fearful of a possible influence on trading.

## AUSTRIA BANS 100 FOREIGN PUBLICATIONS

Open Drive Against Objectionable Newspapers

By Wade Werner  
Associated Press Foreign Staff  
Vienna, March 29.—(AP)—In summary orders issued today, Austria banned 100 foreign publications, including 10 from the United States, and ordered the removal of made statues from the streets of Austrian cities.

The order against the foreign publications marked the beginning of a drive against objectionable or immoral newspapers and magazines sold here.

The list of those banned included the Saturday Evening Post, The American Magazine, Variety, True Story Magazine, Wide World, Pearson's Magazine, La Vie Parisienne, Paris Flair, The Daily Sketch and The New Chronicle, the latter two British publications.

Officials did not say whether the American papers prohibited were considered offensive on political or moral grounds, nor did they say any other reason, specifically applying to these particular publications.

In Philadelphia, George Horace Lorimer, editor of the Saturday Evening Post, said he did not know what reason why they should be banned, but he said he would be glad to see them banned.

A spokesman for the American Magazine said he believed the Americans had refused their magazine, True Story, with one of a similar name published in Berlin.

Government workers after receiving the order that made statues of emperors and kings to be removed from the streets of the city, were told to remove them.

Among the statues torn down was that of a naked figure of a farmer, said to be a statue of a farmer, which had been erected on the street in the city.

It was stated that no formal censorship has yet been ordered against the government, but it was said that persons whose remarks lack a respect for the emperor are warned and sometimes arrested.

## FISHERMEN FIND BODY OF EIGHT YEAR OLD BOY

Charles Backus Believed To Have Been Killed By His Father 2 Months Ago

Rockford, Ill., March 29.—(AP)—Discovery of the body of Charles Backus, Jr., today came within 24 hours of the time the boy's father was sentenced to 20 years on each of two rape charges, growing out of complaints of his two step-daughters. The sentences run concurrently making Backus eligible for parole in 13 years.

Since Backus was sentenced on one charge in connection with his sons' death, he cannot be tried on any other complaint in connection with this crime now that the body has been found.

The older Backus said he accidentally killed the boy in punishing him, and that he showed the body to a friend in the city. He had directed officials on a number of fruitless searches but it is believed the breakup of the ice threw the body near the shore.

Backus agreed to plead guilty to a manslaughter charge but refused to admit that he had killed the boy. He had believed conviction on a murder charge would be impossible, partly because of the failure to locate the body, and accepted Backus' plea on the lesser charge.

Judge Arthur E. Fisher sentenced Backus to serve 14 to 14 years on the manslaughter charge. He was also sentenced to 20 years on each of two rape charges, growing out of complaints of his two step-daughters. The sentences run concurrently making Backus eligible for parole in 13 years.

## WIRT 'BRAIN TRUST' PROBE IS APPROVED

Gary Educator Will Be Summoned To Washington

Washington, March 29.—(AP)—A call for Dr. William A. Wirt, of Gary, Ind., to take time from his school duties to appear before the presidential advisers who had told him they were deliberately undermining democracy, was made today by the house.

A resolution setting up a special committee of five to investigate the Gary school superintendent's charges that professional advisers had said that President Roosevelt was only the "henchman" of "this revolution" was passed after brief discussion.

Speaker Rainey said he would name the committee early next week, possibly Monday, and that they would immediately summon Dr. Wirt. The speaker said Representative Bulwinkle, "D. N. C." author of the resolution of inquiry, would head the investigation. There was no objection to the passage of the resolution which was directed to call Dr. Wirt and "require him to reveal the source of the statements he had made to the effect that the United States is in the process of a 'deliberately planned revolution'."

Branded an undesirable alien public beneath the stigma of an accused and fined \$44,000 and \$20,000 from the treasury of Middle West Valley Utilities Company, and anybody who might throw light on Wirt's assertions might be called.

A "smothered hearing will not establish the truth," he said. "It will only create more public distrust."

Representative Burns, of Tennessee, the Democratic leader, replied that the resolution was broad enough to cover all phases of the Wirt episode.

Representative Kvale (R., Minn.) wanted to know if it would cover "credulous of Steeltrustville or agents of a lobby trying to kill a bill in which the administration is interested."

He pointed out that the steel industry is Gary's principal business and also that the Wirt charges were first heard during testimony opposed to the stock market regulatory measure.

Representatives McFadden of Pennsylvania and Fish of New York, both members of the House, said they believed that there was substance to Wirt's charges. McFadden denounced the "international bankers." Fish the American civil liberties union.

Representative Mapes (R., Mich.) observed:

"I have been unable to get worked over the Wirt statements and all the more for that reason. Wirt's charges were first heard during testimony opposed to the stock market regulatory measure."

## MOTHER APPEALS TO MISSING GIRL TO RETURN HOME

Mrs. John Pollock Says She Cannot Live Long If Her Daughter Stays Away

Manitowoc, Wis., March 29.—(AP)—Declaring she is ill and feels she will not live much longer, Mrs. John Pollock, mother of Miss Eunice Pollock, University of Wisconsin co-ed who has been missing 12 days, appealed to the press today to help bring the girl home.

The message read: "Dearest Darling Daughter: Since we learned of your disappearance your father and I have been praying day and night for your return. I am on my knees most of the time asking the Lord that you may come back. We will be willing to do anything if you will only come home. If you do not come soon you will never see me again because I can not last much longer. Everything will be all right and we will all be happy again. If you see this, please let us at once that you are coming."

The girl's father was in Madison today endeavoring to get trace of her. Mrs. Pollock was confined to bed and under the care of a physician. In a brief conference with newspapermen she emphasized that Eunice was always a girl of exemplary habits and very religious.

Miss Pollock disappeared after she was expelled by a "secret court" from a sorority at Madison.

At the same time Henry Nail and Miss Rosie Leigh, both of this city were also married and Ludlow P. Squier and Elizabeth Mershon were wed. The original plan called for the three couples to be wed at the same time, but Squier and Miss Mershon changed their decision and were married at home.

In observance of the anniversary, Mr. and Mrs. Page attended a dinner in the Baptist church which was given by the Ladies' Aid of the church. The employees of the Jersey County Democrat were guests at the

dinner of Mr. and Mrs. Page.

## J. Stelle in Address Here Says Harmony Need of Democrats

A plea for harmony, a prediction of another Democratic victory in Illinois next fall, and a lot of general advice to Morgan county Democrats on how they may elect a full ticket was delivered by John Stelle here Thursday morning. Mr. Stelle, who is unopposed in the primary election as a candidate for State Treasurer, addressed a well-attended rally at the court house.

"Democratic leadership is just in its infancy," Mr. Stelle declared. "These

primary elections are of much importance, because from them come the future leaders of the party. Remember the Democrats are not on the defensive side this time; we are still on the offense and must carry on to maintain our majority."

He described the political situation in Morgan county as "healthy," with a number of persons seeking leadership and the various offices. From this interest will come strong and capable leadership and candidates, Mr. Stelle urged. He urged the audience to lay aside personal prejudices and selfishness and work for the good of the party.

Stelle's visit to Jacksonville was a stop on his statewide tour this spring. He is unopposed for Treasurer, but is waging an active campaign, giving particular attention to promoting harmony in the various counties. He characterized large fields of candidates as a hopeful sign for the party.

Arriving at the court house about 10:30, Mr. Stelle was greeted by a large crowd of Democrats. All county candidates, precinct candidates and workers were invited to the meeting.

Judge James M. Barnes served as chairman of the session. He introduced Stelle as "one of the most capable younger leaders of the Democratic party." He reviewed briefly Mr. Stelle's connection with the party over a period of years. Stelle now holds the position of assistant state auditor.

During his talk Mr. Stelle called upon all the county candidates to rise. They were received with applause.

After talking over the situation as applied to Illinois, Stelle lauded the program of President Roosevelt. "The fight from now on may be centered around the government's expenditure of eleven billion dollars for GWA and other relief activities," he said. "The opposing party will contend that such expenditures have bankrupted the government."

## TRAIN DISCUSSION LEADERS TO AID IN FARMERS' PROBLEMS

Urbana, Ill., March 29.—Illinois farmers will be better prepared to cope with new economic and social trends affecting agriculture in the future, as a result of plans now being made to train community discussion leaders and to hold regular community discussion meetings, predicts D. E. Lindstrom, associate in rural sociology at the College of Agriculture, University of Illinois.

The value of community discussions has been demonstrated by the nearly 3,000 AAA corn-hog and wheat adjustment meetings held throughout the state in recent months, it is said.

Several Illinois counties are now training discussion leaders and organizing discussion teams in various types of community units. Training schools attended by approximately 150 rural people from 32 different community units, have been conducted in Champaign, Ford and Sangamon counties for the purpose of developing discussion leaders. Similar schools will be held in other counties during 1934 so that farm and home bureau units, granges, community clubs and like organizations may provide their memberships with a better understanding of the new economic and social developments affecting farm life.

"The importance of discussion in rural community meetings was recognized by the Agricultural Adjustment Administration when launching both the wheat and corn-hog programs," points out Lindstrom. "A total of 752 community meetings attended by approximately 68,000 farm people were held in 69 Illinois counties by farm advisers and the extension service of the agricultural college in connection with the wheat adjustment campaign. Later there were 2,027 community meetings conducted in 102 counties to discuss the corn-hog program. The latter gatherings were attended by 191,867 of the 214,000 farmers of the state. Thus the corn-hog campaign reached more than 90 per cent of the farm operators in Illinois."

"By training leaders who can conduct discussions at rural community meetings, Illinois farmers will be better prepared to develop future co-operative activities related to their industry."

## State Chairman of Clubs in Statement

Since the Illinois Federation of Women's clubs has gone on record as endorsing the Reserve Officers' training corps and the Citizens Military Training Camps, and protested their abolition, the State chairman of legislation, Mrs. George Palmer, has asked the individual clubs in the district and county to urge through their local chairmen the maintenance of each component and training activity.

Mrs. Palmer says, "before we ask the United States to take the lead in the reduction of armaments, an example, of course, that no other country will follow, we should remember that the existing total of our land forces, and organized reserves, including our regular army, and national guard is about one-third per cent of our total population."

This is a particularly significant fact when we consider that in other countries except Germany whose army is supposed to be limited by treaty, this ratio in regard to population is from 3 to 45 times as great.

"Our total forces in actual size are exceeded by those of 15 other nations, although in population we are exceeded only by Russia, China and India."

"The United States has never armed for aggressive and it is safe to say she never will. To be reasonably prepared, however for defense in a predatory

world is only sane, common sense. That we, the richest nation in the world, should fail to protect ourselves from possible attack would mean that we were inviting disaster. The probable results are too terrible to contemplate."

Mr. and Mrs. W. D. Hill of Merrill were among the Thursday shoppers in Jacksonville.

# Talk New Practice Act at Club Meet

The new law practice act was discussed by Leavitt C. Arnold, local attorney, at the Thursday meeting of the Kiwanis club. Preceding Mr. Arnold's talk announcement was made that the club ladies night will be observed next Thursday night at the Kiwanis hut.

That the new practice act has done much to speed the trial of cases in court is the opinion of Mr. Arnold, who said this is due to the removal of many technicalities that formerly hampered the movement of trials. The simplification of presentation of complaints, the wider powers given to sheriffs in the matter of service and

the abolishment of court terms were listed as some of the things in the practice act that have resulted for improvement of court procedure.

While Illinois was one of the last in the nation to adopt changes in procedure this state has profited from the experience of other states.

# RED & WHITE STORES CELEBRATE 13TH BIRTHDAY

**Founded in 1921 by S. M. Flickinger**

From a humble beginning, the Red & White stores have leaped into international fame. There is hardly a hamlet or city in the United States or Canada which has not heard the Red & White name. Growth of the Red & White stores has been phenomenal.

**History of Red & White**

The Red & White stores plan of operation was conceived by Mr. S. M. Flickinger, of Buffalo, New York, in 1921. It was to meet the de-

with a number of similar independent stores in his city and are serviced by a local wholesale grocer (Jenkinson Grocer Company). There are over one hundred similar wholesale grocers in other parts of the United States and Canada who also offer this unique service to their own individual groups. These organizations are affiliated with a national organization who comprise the Red & White Corporation.

Red & White was conceived and developed for the benefit of the retail store and is operated not for profit. It is not a stock-selling scheme—it is purely a friendly organization whose existence is made possible by the splendid cooperation, confidence and integrity of its members, whose names comprise the "social register" of the wholesale and retail food industry. Some of the finest names in the distribution of food can be found listed among the Red & White members. One of the unique principles on which the Red & White stores operate is the application of the Golden Rule, "Do unto others as you would have them do unto you." This plan of operation has proved to be highly successful and brings a fraternal atmosphere into the daily grind of business.

# Beardstown

Beardstown, March 29.—The Rotary club held their regular Monday evening meeting in the parlors of the Congregational church March 26. The program consisted of a reading by Frank LaMasters, the title being "A Young Man Writes to the Editor," and Lewis Simpson gave a reading of poetry.

James Upton was a visitor of the club.

Men who need garden spots should register at the city clerk's office. There are one hundred and five garden plots of one hundred feet square each that are to be given out to the first one hundred and five men to register. In other words, the first men to register will be the first served. Only one hundred and five names will be taken and the registration will close. Each man as he registers is given a number. When the entire one hundred and five plots are signed up for, the numbers will be drawn for the lots. In this way the men are given an equal chance in obtaining one of the better garden spots.

**Clerks Have Bridge Party**

The lady clerks of Ward's were entertained by a bridge party at the home of Mrs. Virgil Reuther. Prize winners were Mrs. Virgil Maurer, Miss Eva Kirkham and Miss Yoda Phelps. The hostesses for the evening were Mrs. Virgil Reuther and Mrs. Ruth Weller.

### FARM BUREAU NOTES

With probably a hundred foreign plants to choose from, Illinois farmers taking part in the AAA corn-hog and wheat adjustment programs have a singular opportunity to restore some of their old permanent pastures or seed new ones on the retired acres, says J. J. Pieper, associate chief of the crop production at the College of Agriculture, University of Illinois. At least 25 of these crops are used more or less commonly in the state.

To make the most of their opportunities farmers must select the ingredients for their pasture mixtures that are best adapted to the soil and

that at the same time fit the needs of the grower.

Kentucky bluegrass is one of the most popular for pastures, explains Pieper, and is adapted to the better soils, somewhat inclined to be sweet. Timothy has a wide adaptation for pasture and drainage in all parts of Illinois while red top is a favorite on poor, acid and wet land where other grasses find it difficult to get a stand.

White clover is the most important permanent pasture source but will not do well on poor, acid soil, while alfalfa will grow where it is too wet and acid for alfalfa, sweet or red clover. In the southern two-thirds of the state, Korean lespedeza may be substituted in pasture mixtures on soils too acid for alfalfa clover.

Mixtures that may be seeded for permanent pasture on the various types of soil, together with the amounts to be sown on each acre are suggested by Pieper as follows:

Good, well-drained land—Kentucky bluegrass 5 pounds, red top 2, tim-

othy 4 and alsike and white clover 2 pounds each.

Wet fields—Red top 4 pounds, timothy 5, meadow fescue 4 and alsike clover 3 pounds.

Poor, acid soils—Orchard grass 5 pounds, red top 4, Canada bluegrass 5 and alsike clover 3 pounds.

Shaded areas—Orchard grass 5 pounds, rough-stalk meadow grass 5, red fescue 4 and alsike and white clover 2 pounds each.

Where the soil is sweet and fertile, alfalfa or red clover may be added to the above mixtures or used to replace other legumes at the rate of 4 pounds to the acre for alfalfa and 3 pounds for the red clover.

## Allen Glasgow Pens Memories of Home

Many Jacksonville residents will remember Allen H. Glasgow, who was connected with the public schools in the early years of this century, in the capacity of principal of both ward and

high schools. Mr. Glasgow went from Jacksonville to a farm in northwestern Wyoming, and is still located there, living with his son, Mrs. Glasgow having passed away several years ago.

Friends have received word from Mr. Glasgow, which enclosed a poem, the product of his pen, and told of a recent meeting of the Powell Chamber of Commerce, celebrating the twenty-fifth anniversary of the opening of the Powell community and post office. As Mr. Glasgow and his son were

among the original settlers of that locality, the presiding officer called upon Mr. Glasgow for a speech, a part of which is given here:

"Twenty-five years in the history of the human race amount to a mere trifle; but in the life of an individual twenty-five years mean much more. They more than span the time between childhood and youth, between youth and middle age or between middle age and old age.... We thank the Chamber of Commerce for their courtesy, and assure them that the 1934ers will remember this occasion long and pleasantly. We also assure you that we will be back to help celebrate the fiftieth anniversary."

Mrs. Glasgow was the former Martha Lucella Blackburn, and was herself a teacher in the county at the

time she met Mr. Glasgow.

**Old Home Memories**

What a peaceful abode was the old homestead  
In its setting among the hills!  
We pause to recall the days that have sped,  
And intimate scenes in the lives we led.  
Far away from a sordid world's ills,  
How thoughts of the old days come flooding the mind  
As we bid them welcome once more,  
And dwell among scenes we have left behind.  
Recalling the features and actions kind  
Of friends who have — one on before  
Though our lives for years have been

drifting apart,  
And we've lost the touch of the hand,  
Yet never in whole, but only in part.  
Did we lose the touch of the kindred heart,  
Ere again we united our band.

Through our pens we're joining our hands once for all;  
With our pens we speak to the heart,  
And each heart responds to the kindred call—  
Too subtle on physical ear to fall—  
And its message in turn it imparts.

Now with lives in touch, and hearts beating time,  
Let's journey the rest of the way;  
Soul cheering soul with its music and rhyme  
As soothing and soft as a vesper chime  
At the close of a long summer day.  
—Allen H. Glasgow, Powell, Wyo.

# TIME TO CHANGE OIL

## DRAIN OUT SLUDGE THE OIL-EATER

This New Motor Oil stops sludge formation...cuts oil costs

Look at the maps (at right). They'll tell you why it's time now to drain out winter-worn oil and change to heavier grades.

When you change, decide that this summer you'll keep sludge out of your engine. For sludge clogs your oil lines, hinders lubrication, fouls your filter. It makes valves sluggish so you lose gasoline power. Finally, it causes rings to stick and pump oil. It is the greatest

cause of high motor-oil consumption.

Keep sludge out by using Iso-Vis "D", the Anti-Sludge Motor Oil. It does not sludge under the hardest kind of driving. It keeps rings lively and free, reducing oil consumption to the minimum. That's why you have to add to it less frequently between drains.

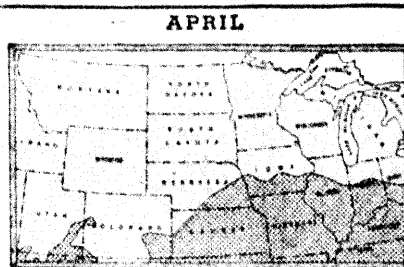

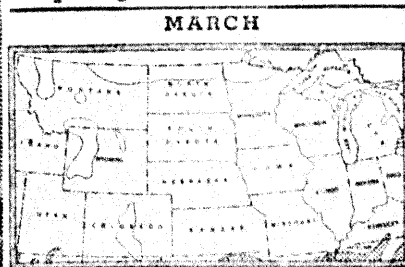

ISO-VIS "D". . . . 25c a qt.

PLUS FEDERAL TAX . . . . 1c a qt.

TOTAL . . . . . 26c a qt.

## Spring Weather Calls for Heavier-Grade Motor Oil

## TEMPERATURE DUE TO RISE

The maps above are based on U. S. Weather Bureau records, in many cases extending back 50 years. Study them. They show why you should change to a heavier grade of motor oil at this season of the year, in order to secure the most economical lubrication.

In the light-shaded areas, temperatures are such that cool-weather grades of oil are recommended. In the dark-shaded areas,

temperatures have advanced to a point where the next heavier grade of oil has the advantage of less oil consumption.

Every Standard Serviceman uses such information as this in determining the exact grade of oil you should use in your motor. He doesn't guess. He bases his recommendation on three factors—the weather, the kind of car you own, and the kind of driving you do.

## 8 SHORT MINUTES TO DRAIN AND CHANGE

It takes no more than 8 minutes to drain off your worn-out winter oil and refill with the proper grade of Iso-Vis "D" at Standard Oil Stations. Then you will be rid of sludge and you'll keep your oil cost to the minimum.

## It's Change Time, Too, For Differential and Transmission Lubricants

Spring-time is the time to heavy-up on lubricants that protect your differential and transmission gears. Standard Stations have correct lubricants for this very purpose. And Standard Servicemen are expert in the complete lubrication of any make of car—old or new. A Standard Specified Lubrication job means correct lubrication at every point.

## PREDICT CLOSE 1934 SEASON IN AMERICAN LEAGUE

By Edward J. Neil  
Associated Press Sports Writer  
New York, March 29.—(AP)—Take one swift look down the American League for 1934—and for the first time in years you see a balanced team. The Yankees, who have been the dominant force in the league for the past several years, are expected to be challenged by the Red Sox, the Athletics, and the Tigers.

The Yankees, who have been the dominant force in the league for the past several years, are expected to be challenged by the Red Sox, the Athletics, and the Tigers.

We've been thinking for some time that the seasons are all twisted around, but we were convinced of this the other day when we read in a Kansas City newspaper that St. Benedict's college and Drake played a football game last week end.

Not only that but the game was played after dark under the Drake lights.

Contrary to reports published in this column previously, Hubert Pearce and Abe Fedurik did not go to Johnson City the other night to play against Wesleyan. They were invited to go, but since their absence from college at this time would have cost them triple cuts, because of the approaching spring vacation, it was impossible for the men to make the trip.

## BRUINS WAYLAY PIRATES 5 TO 1

Los Angeles, March 29.—(AP)—The Chicago Cubs took a three to two lead in their series with Pittsburgh here today, capturing a 5 to 1 decision although badly outbatted by the Pirates.

Two homers, by Augie Galan, Cub third baseman, in the third, and by Dolph Camilli, in the seventh, were enough to win for Chicago, but they added three other failures in the sixth on two hits, two walks and two errors.

The Buccaneers scored in the eighth when Thevenow singled, took second on an infield out and tallied on Suhr's safety.

Ray Janner, Chicago southpaw, coasted from Oakland of the Coast League, although touched for 12 hits, scattered them.

## Players Select Junior For Leader at Party Given by Coach; Gridders Get Letters

Stanley Davis, son of Mr. and Mrs. Stanley I. Davis, was elected to captain next year's Jacksonville high school basketball team at a party given for the members of this year's squad by Coach Frank Walker, last night, topping off a day during which enthusiasm reigned at a high pitch at the high school. Davis, who played in several of the games this year, as a guard and one of the most promising athletes to come up through the high school for a number of years.

Thirteen members of the Crimson football squad, which went through an eight game schedule last fall and lost only one game, were awarded football letters at a morning assembly at the high school, over which Coach Walker presided. Coach Raymond Nussickel, of Illinois College, and Dr. R. O. Stearns, Superintendent of schools, were sponsors at the presentation ceremony. During the talk, the students enthusiastically joined in singing the high school song under the direction of Glen I. Myers, with Miss Louise Sheppard accompanying.

## CONVICT STEEN ON BURGLARY CHARGE IN CASS

**Jury Out 27 Hours; Other  
Virginia News Notes  
of Interest**

Virginia, March 29.—The spell of "hung juries" in Cass County was broken yesterday when the jury convicted George "Pete" Steen of burglary, in the Circuit court, after being out for more than twenty-seven hours. Upon hearing the verdict of the jury, Myron E. Mills of Beardstown, attorney for the defendant, entered a motion for a new trial, which will probably be heard in several days.

A. Clay Williams of Pittsfield increased the amount of bond from \$1,000.00 to \$2,000.00, and Steen being unable to furnish bond was taken to the county jail by Sheriff Edwin F. Reichert.

The cases of the People vs. Latney and Commodore Stewart, charged with burglary and larceny, and the damage suit of Henry Collura vs. the Beardstown Amusement company, tried at the March term in 1933, and the Stewart trial reheard at the October term of court resulted in hung juries.

Members of the jury who convicted Steen were: Earl Peterson, Glen Gann and Raymond Panning of this city; Harry Lucas, W. O. Sanders and Edwin Schnake, of Beardstown; Myron L. Herman and Raymond Schutker, of Arenzville; Manuel Watkins, Frank Dierks and Edwin Sarff, Chandlerville; and William Bins, Bluff Springs.

## PEDESTRIAN IS SEVERELY HURT IN ACCIDENT

A man who gave his name as Gus Smith and his age as 40 years was brought to Our Saviour's hospital Thursday afternoon suffering from fractures of both legs and cuts and bruises about the body and head. He was struck by a car on the hard road about ten miles north of the city.

The machine was an Auburn, driven by James Kathmann of East St. Louis. Smith was walking on the hard road. A truck was passing and Smith is said to have stepped aside to get out of the way. Kathmann tried to miss him and in doing so, ran his car into the ditch.

It took half an hour to get the car back on the slab. Kathmann then brought the injured man to the hospital here. He is in a serious condition. Smith told hospital authorities he has no present address, but formerly lived in Maryland.

Smith was walking south on the hard road when the accident occurred. Kathmann was also headed south.

## JOHN FACTOR TO TAKE PART IN KIDNAP FILM

Chicago, March 29.—(AP)—John Factor was en route to Hollywood today, where he said he would take part in a motion picture.

Accompanied by a guard, the recent victim of the Roger Touhy kidnap gang boarded a plane at a local airport last night, asserting he had agreed to a role in a movie depicting his career and experience as a victim of kidnapers.

His departure for the west coast followed by only a few hours his arrival from New York where he aided federal authorities in their search for Frank "Porky" Dillon, last important fugitive member of the kidnap gang. Factor paid \$70,000 for his release from the band.

Factor said he had negotiated with motion picture executives in New York for the film.

Factor's stay in America is at the consent of British authorities, who plan to try him on a stock swindling charge.

Scales and arpeggios and things may prepare some artists for the opera, but for John Charles Thomas, the Metropolitan opera baritone, there's nothing like a good old head-lock or body-slam to get in trim for the strenuous job. ## HOG PRICES OFF 5 TO 10 CENTS

Chicago, March 29.—(P)—The hog market was discouraged by a lack of support for dressed pork today and prices declined 5 to 10 cents in slow trading. The top was \$4.45 with the bulk from \$3.90 to \$4.40. The big packers had half the run direct and left the bulk of open market transactions to others. Shippers took 1,500 head, the government about 2,000 and small killers the remainder.

Cattle trade was generally steady, although some weakness was apparent, chiefly in lower grades of light cattle. The extreme top was \$7.35, paid for long yearlings. The bulk of steers sold at \$5.50 to \$7.

Sheep were slow, but mostly steady. Fat lambs topped at \$9.15 and sold down to \$8.75. Supplies were ample and demand slow.

## COMMUNITY HOLY SERVICE IS HELD AT BAPTIST CHURCH

### Lord's Supper All-Uniting Ritual of Christianity Says Schillerstrom

Picturing the Lord's Supper as the all-uniting ritual of Christianity, Rev. Glen E. Schillerstrom last night delivered the main address at the annual community Holy Thursday service in the First Baptist church. A congregation which packed the church partook of the communion, inaugurating the Easter services which will be held over the week-end in the churches of the city.

Taking his text from Corinthians 11:26, Rev. Schillerstrom declared that the Holy Supper tells the story of Christianity. Regardless of what point is to be stressed in the teaching of the Lord, the basis for the teaching can be found in the story of the Holy Supper.

Nations have come and gone, good times and bad times have come and departed, but the Holy Supper has lived through 1900 years, and comes to the present day unchanged in form, he pointed out.

The feast has caused people to unite more closely with God in a manner that no other service can reach the heart, he said. The People have been united by the Holy Supper, he pointed out, in a common advocate in Jesus with his father through the years of joy and adversity.

Not only does the feast unite people with each other and with God, he declared, but it also unites them with those who have gone into the next life. The communion of the last supper, he pointed out, is all-uniting.

Rev. T. Harley Marsh presided over the service. Rev. W. A. Richards gave the invocation. Rev. Cedric Powell led the responsive reading. Rev. W. C. Meeker read the scripture lesson, and Rev. C. H. Thrall gave the prayer.

Special musical numbers were provided by the Baptist choir, and by Prof. W. Z. Fletcher.

## GREENE COUNTY YOUTH INJURES HAND IN GRINDER

### Other News Notes of Interest From Carrollton and Vicinity

Carrollton, Ill., March 20.—Laverne Early, the 7 year old son of Mr. and Mrs. Ornel Early, living southwest of Woodville, while vacationing his father operate a horse driven corn grinder at about 2 p. m. Tuesday, tried to move a bucket of the ground corn while the grinder was in motion, his right hand got caught in the gears and was badly mangled and mashed and torn. The child was brought here to the home of Russell Wiles and was treated by Dr. A. D. Wilson. The roads from the Early home were in such a bad condition that it was almost 8:30 p. m. when the child received medical attention and was suffering from shock. Dr. Wilson was unable to save the hand and he would be able to save the hand or not.

**Decided Controversy.** The three appeal judges said: "We think it is inconceivable that there could be any other purpose or intent in the minds of those who brought about the false entries than to deceive the comptroller or his agents."

"An examiner for the eighth federal reserve district testified that he had examined the bank four times during the period from December, 1929 to the spring of 1932 and had criticized the note in question."

"It is a fair inference that if the examiner had known the interest had not been paid he would have ordered the note collected or charged off, and these no doubt were what the appellant and his co-defendants wanted to avoid."

It was explained in the decision that it was unnecessary for the government to prove for what motive the false entries were made, but only to prove that they were made with the intention of deceiving.

In the original trial, Nelson himself testified that he had paid the money and that he had never paid any interest.

"We think this is sufficient evidence of the falsity of the entries," the appeal judges ruled.

Dunlap's case has been before the United States court of appeal for several months. After he was found guilty in district court at Springfield and sentence passed by Judge Charles G. Briggie, the banker's attorney appealed to the higher court. They argued the appeal in Chicago two months ago.
